## SUMMARY

Resourceful Full Stack Developer, proficient in JavaScript, PHP, WordPress, and Drupal, as well as SQL. Skilled in crafting seamless web solutions, optimizing cloud integration, and advancing system efficiency. Looking to bring a commitment to innovation and company growth to a visionary team.

## SKILLS

PHP, JavaScript, React, TypeScript, HTML5, CSS3/Sass, WordPress, Drupal, API, AWS, Node, Redux, SQL, Docker, Responsive Design, Git, Agile Methodologies, Jest.

## WORK EXPERIENCE

### Newpath Web

Melbourne, VIC

Full Stack Developer

Nov 2023 - Present

- Utilized **PHP**, **JavaScript**, **HTML5**, and **CSS3**/Sass within the **LAMP** stack on **Linux**, alongside **React**, and **.NET** framework to deliver optimized and scalable web applications.
- Led the redesign efforts for both new and existing projects in **Drupal** and **WordPress** for multiple clients, taking ownership of the entire process from conception to implementation.
- Streamlined workflows with **Webpack**, **Gulp**, and **Grunt**, reducing build times by 35% and enhancing team collaboration through automated code compilation and version control across project-level works.
- Supported the integration of AWS S3 for file storage and Cloudflare for caching, contributing to a 13.5% reduction in server storage costs.
- Containerized custom **APIs**, React front-ends, and WordPress/Drupal sites with **Docker**, reducing deployment times by 40% and increasing development efficiency by 30%, while cutting deployment errors by 25%.
- Instigated **SEO** and **WCAG** standards in project redesigns, collaborating closely with marketing and design teams via Jira and regular meetings to ensure accessibility and optimize search engine visibility.

### Queen Of My Universe

Melbourne, VIC

Web Developer/Designer

Apr 2023 - Nov 2023

- Co-led team to develop a responsive WordPress website for a Melbourne-based personal coach, utilizing **PHP**, **HTML5**, and **CSS** to ensure an appealing and user-friendly UI, elevating online presence and user engagement.
- Established modifications in the Yoast SEO plugin to enhance SEO optimization, and XML sitemap generation.
- Enhanced customer service by optimizing email inquiries and implementing appointment scheduling.
- Proficient in **API** integrations, facilitating seamless connectivity and data exchange between WordPress sites and third-party services such as **Mailchimp** for email marketing automation and **PayPal** gateway for secure transactions.

### ATM Online VN

Ho Chi Minh, Vietnam

Software Developer

Jan 2022 - Mar 2022

- Troubleshooted and maintained an in-house website workflow using **HTML5**, **CSS** / **Styled Component**, **PostgreSQL**, **React** and **Typescript**, resulting in a 20% increase in website performance.
- Implemented **JWT** token-based authentication and authorization with **Passport.js** and **Redux** state management in **React Native** components for mobile projects, concurrently addressing ticket resolutions to maintain functionality.
- Collaborated with backend developers to optimize **Node.js** API calls, reducing data transfers. This resulted in a well-structured React codebase while also achieving 30% faster loading times.
- Employed testing framework using **Jest** for more advanced utilities and rendered components in unit tests.

## EDUCATION

### Swinburne University of Technology

Melbourne, VIC

Bachelor of Information and Communication Technology

2022
