SUMMARY

Full Stack Developer skilled in **React.js**, **Next.js**, and the **LAMP** stack (Linux, Apache, MySQL, PHP), building scalable and high-performance web applications. Experienced in **WordPress** and **Drupal** development, optimizing cloud integration (AWS), and improving development workflows for faster, more efficient deployments. Passionate about creating seamless, user-friendly digital experiences that enhance business growth.

SKILLS

PHP, JavaScript, React, TypeScript, HTML5, CSS3/Sass, WordPress, Drupal, API, AWS, Node, Redux, SQL, Docker, Responsive Design, Git, Agile Methodology, Jest, Unit Testing, Integration Testing, CI/CD.

WORK EXPERIENCE

Arcadian Digital   **Melbourne, VIC**
Frontend Developer   Nov 2024 – March 2025

• Developed and maintained custom **Gutenberg** block builder tools (**React.js**) to streamline **WordPress** development, improving flexibility and scalability.

• Configured **AWS CodePipeline** for automated deployments, integrating **Git (Jenkins)** and rollback strategies.

• Enhanced **RESTful API** integrations, **SQL** queries, and security best practices within a **LAMP** stack environment.

• Conducted thorough cross-browser and device testing using **BrowserStack**, ensuring error-free deployment and consistent user experience across platforms.

• Built responsive, accessible **UI** components following **WCAG** guidelines, BEM-based **SASS** architecture, and **UI/UX** best practices for a seamless user experience.

• Fostered team collaboration by improving internal documentation, refining code reviews, and facilitating knowledge-sharing sessions via Notion and regular meetings.

Newpath Web   **Melbourne, VIC**
Full Stack Developer   Nov 2023 – Nov 2024

• Utilized **PHP**, **JavaScript**, **HTML5**, and **CSS3**/Sass within the **LAMP** stack on **Linux**, alongside **React, TypeScript**, and **.NET** framework to deliver optimized and scalable web applications.

• Led the redesign and optimization of both new and existing **Drupal** and **WordPress** projects for multiple clients.

• Boosted development efficiency by implementing **Webpack**, **Gulp**, and **Grunt**, cutting build times by 35%.

• Containerized custom **APIs**, **Node.js**/Express backends, frontend applications (React.js), and WordPress/Drupal sites with Docker, optimizing deployment workflows and reducing deployment times by 30%.

• Collaborated with marketing and design teams through Jira and regular meetings to instigate **SEO** and **WCAG** standards, ensuring accessibility and optimizing search engine visibility.

Queen Of My Universe   **Melbourne, VIC**
Web Developer/Designer   Apr 2023 - Nov 2023

• Engineered a responsive **WordPress** website for a Melbourne-based personal coach, using **PHP**, **HTML5**, and **CSS** to create a user-friendly **UI** that boosted online presence and engagement.

• Implemented **PHP unit testing** strategies to ensure code stability, catch bugs early, and improve deployment reliability.

• Integrated third-party APIs to improve site functionality, including **Mailchimp** for automated email campaigns and **PayPal** for secure payment processing.

EDUCATION

Swinburne University of Technology   **Melbourne, VIC**
Bachelor of Information Communication and Technology   2022
Major in Software Technology

CERTIFICATIONS

Front End Developer (React) – HackerRank (2025), SQL (Advanced) – HackerRank (2025), Serverless – AWS (2025).
